Objective

As an engineering student passionate about DevOps, networking, data and , I am seeking an internship to apply my technical skills and expand my knowledge in these areas while contributing to real-world projects.

Education

Data Engineering Cycle <i>Faculty of Sciences, University of Sfax, Tunisia</i>	Sep 2024 – Jun 2027
Integrated Preparatory Cycle in Computer Science <i>Faculty of Sciences, University of Sfax, Tunisia</i>	Sep 2022 – Jun 2024

Professional Experience

DevSecOps Engineering Intern <i>SIFAST, Sfax</i>	2024
Designed and implemented a fully automated end-to-end DevSecOps pipeline integrating IaC (Terraform, Ansible), CI/CD (Jenkins, SonarQube, Trivy), artifact management (Nexus), and GitOps deployment (ArgoCD, Helm, K8s). Monitored production with Prometheus and Grafana, routing critical alerts to Slack.	
IoT & Infrastructure Intern <i>Wedtect</i>	2024
Designed an end-to-end IoT data pipeline for LoRaWAN device monitoring using ChirpStack on Raspberry Pi, ingesting unstructured data into MongoDB.	
Private Data Science Platform <i>Data Eng. & Semantics Research Unit, University of Sfax</i>	2025
Deployed a self-hosted multi-user JupyterHub platform on a Kubernetes cluster (Proxmox/Terraform) Full lifecycle automated with Ansible and Helm	

Projects & Competitions

SignBridge – Sign Language AI Platform <i>MasterFaster 3 – 2nd Place</i>
AI-driven platform enabling two-way translation between Tunisian Dialect and Tunisian Sign Language, combining speech recognition, text-to-speech, and BiLSTM-based gesture modeling. Used Mediapipe for real-time hand and pose landmark extraction to power the sign recognition pipeline.
JobKai – AI Employment Platform <i>TSYP13 CS&CN Challenge – 3rd Place</i>
AI-powered job platform for MENA and Sub-Saharan Africa with resume analysis, interview simulations, and semantic job matching; microservices architecture with React/TypeScript and FastAPI. The platform was deployed on AKS with CI/CD pipeline including Trivy scanning and SonarQube analysis.

Technical Skills

Languages: Python, C/C++, Java, SQL/PLSQL, Web Dev
DevOps & IaC: Docker, Kubernetes, Jenkins, ArgoCD, Terraform, Ansible, Helm, SonarQube, Trivy, Nexus
Cloud: Azure (AKS), Cloudstack
Monitoring: Prometheus, Grafana
Data & AI: Spark, Pentaho, Tableau, NLP, Computer Vision, FastAPI, BiLSTM, Mediapipe
Tools: Git, MongoDB, SQL Server, Firebase, Streamlit
Networking: Linux, Virtualization, LoRaWAN (ChirpStack)

Certifications

EF SET Certificate C1 (English) • Microsoft Office Specialist Associate (Office 2019) – Microsoft
• Object-Oriented Programming in Java – Udemy • Azure AI Fundamentals – Microsoft
• Certified Kubernetes Administrator (CKA) – Coursera

Leadership & Extracurricular Activities

Chairman, IEEE FSS Computer Society Chapter <i>IEEE</i>	Jan 2025 – Jan 2026
Organized events, workshops, and competitions to engage members and foster professional growth.	
Lead & Founder, Competitive Programming Club <i>Faculty of Sciences of Sfax</i>	Sep 2023 – Sep 2024
Founded and led the club with a core team, growing membership to 100+ students, Improved average problem-solving scores by 25% through structured training programs.	

Languages

Arabic (Native) • English (C1 – Fluent) • French (Proficient)

Hobbies

Sport • Chess • Reading • Classical Music
