MOHAMED YASSINE ABID

abidmohamedyassine00@gmail.com +216 28 592 003 Sfax, Tunisia abidology mohamed-yassine-abid

Objective

As an engineering student passionate about DevOps, networking, data and , I am seeking an internship to apply my technical skills and expand my knowledge in these areas while contributing to real-world projects.

Education

Data Engineering Sep 2022 – Jun 2027

Faculty of Sciences, University of Sfax, Tunisia

Professional Experience

MLOps Engineering Intern | *OliveSoft, Sfax* 2026

Deployed and configured an enterprise Kubeflow platform on an on-premises Kubernetes cluster using Helm.
Built and validated ML workflows with Kubeflow Pipelines (KFP), Katib, and Elyra, including a custom Elyra image and notebook integration , Integrated GitLab authentication via Dex for multi-user access and contributed to testing, automation, and platform validation.

DevSecOps Engineering Intern | *SIFAST, Sfax* 2024

Designed and implemented a fully automated end-to-end DevSecOps pipeline integrating IaC (Terraform, Ansible), CI/CD (Jenkins, SonarQube, Trivy), artifact management (Nexus), and GitOps deployment (ArgoCD, Helm, K8s).
Monitored production with Prometheus and Grafana, routing critical alerts to Slack.

Private Data Science Platform | *Data Eng. & Semantics Research Unit, University of Sfax* 2025

Deployed a self-hosted multi-user JupyterHub platform on a Kubernetes cluster (Proxmox/Terraform) Full lifecycle automated with Ansible and Helm

Projects & Competitions

SignBridge – Sign Language AI Platform | *MasterFaster 3 — 2rd Place*

AI-driven platform enabling two-way translation between Tunisian Dialect and Tunisian Sign Language, combining speech recognition, text-to-speech, and BiLSTM-based gesture modeling.
Used Mediapipe for real-time hand and pose landmark extraction to power the sign recognition pipeline.

JobKai – AI Employment Platform | *TSYP13 CS&CN Challenge — 3rd Place*

AI-powered job platform for MENA and Sub-Saharan Africa with resume analysis, interview simulations, and semantic job matching; microservices architecture with React/TypeScript and FastAPI.
The platform was deployed on AKS with CI/CD pipeline including Trivy scanning and SonarQube analysis.

Technical Skills

Languages: Python, C/C++, Java, SQL/PLSQL, Web Dev
DevOps & MLOps: Docker, Kubernetes, Helm, Kubeflow, Elyra, GitLab, Dex, Jenkins, ArgoCD, Terraform, Ansible, SonarQube, Trivy, Nexus
Cloud & Infrastructure: Azure (AKS), Kubernetes, Proxmox, CloudStack
Monitoring: Prometheus, Grafana
Data & AI: Spark, Pentaho, Tableau, NLP, Computer Vision, FastAPI, BiLSTM, Mediapipe
Tools: Git, MongoDB, SQL Server, Firebase, Streamlit
Networking: Linux, Virtualization, LoRaWAN (ChirpStack)

Certifications

EF SET Certificate C1 (English) • Microsoft Office Specialist Associate (Office 2019) – Microsoft
• Object-Oriented Programming in Java – Udemy • Azure AI Fundamentals – Microsoft
• Certified Kubernetes Administrator (CKA) – Coursera • AWS Cloud Practitioner Essentials – AWS

Leadership & Extracurricular Activities

Chairman, IEEE FSS Computer Society Chapter | *IEEE* Jan 2025 – Jan 2026

Organized events, workshops, and competitions to engage members and foster professional growth.

Lead & Founder, Competitive Programming Club | *Faculty of Sciences of Sfax* Sep 2023 – Sep 2024

Founded and led the club with a core team, growing membership to 100+ students, Improved average problem-solving scores by 25% through structured training programs.

Languages

Arabic (Native) • English (C1 – Fluent) • French (Proficient)

Hobbies

Sport • Chess • Reading • Classical Music
